BN 762 - DIN 127 B

Helical spring lock washers
with flat end

DIN 127 B
~UNI 1751 B

Material	**Spring steel**	Hardness	**HV 430-530**
Surface	**mechanical zinc plated blue**		

Article No. - 1275674	
for thread	M6
d_1 min.	6,1
d_1 max.	6,5
d_2 max.	11,8
s	1,6

DIN 127: This standard has been definitively abolished. We recommend DIN 128 (curved spring lock washers) for new constructions.

Alternative:
Depending on the technical manufacturing possibilities, spring steel elements are equally available with an inorganic or mechanical zinc-plating (availability, prices and delivery periods on request). These procedures exclude the risk of varied breakage due to hydrogen brittleness, his being liable to appear in acid baths or during elecroplating (zinc-plating).

Not included in DIN 127.
